

Aluminum Spotter

High-performance dent pulling tool

Light and mobile this tool improves efficiency for quick dent repairs, allowing vehicles to more quickly be moved through the repair process, increasing shop productivity and profitability.

Uniquely designed for aluminum repairs, it works equally as well while pulling dents out of steel body panels. Use to quickly attach studs for dent pulling or grounding. The high-tech discharge process creates the weld without damaging heat sensitive aluminum parts.

This dent puller is a portable spotter that offers a high-frequency inverter for rapid welding and pulling. It contains a built-in ground rod with automatic contact and requires minimum paint removal, only 20mm in diameter.

The power source is supplied complete with gun and ground cable.

FEATURES & BENEFITS

- High-frequency inverter gives rapid welding and pulling
- High-tech discharge process - won't damage heat sensitive aluminum parts
- Light & mobile - increases efficiency and speeds up the repair process
- Included in the Aluminum Work Station (see page 2)

Technical Data

Aluminum Spotter	46534
Input voltage	230V, 50-60 Hz 1-ph
Absorbed Power	0.6 kw
Fuse (slow blow)	16A
Weight	8 kg
Dimensions (LxWxH mm)	320 x 150 x 220
Max re-charge time	12 seconds
Spot gun with power Cable	4 m, with detachable 10A plug
Ground Cable	3m
Working Temperature Range	0-40°C

Aluminum Work Station

Get the Aluminum Work Station and increase your aluminum repair business!

The aluminum work station is designed to provide a solution for aluminum auto body repairs. Avoid galvanic corrosion by keeping your tools separate. With this dedicated tool storage, you will reduce the possibility of cross-contamination with steel particles, and with a built-in work area you can complete your jobs efficiently in one place.

The unique advantage of the Aluminum Workstation comes from the design of the tools included. The dent pulling bars are constructed of light weight carbon fiber making them super light and 3 times stronger than steel! These exclusive tools offer the advantage of ease of use without compromising the strength of the tool.

Hand Puller

FEATURES & BENEFITS

- Carbon Fiber Tools - Lightweight for single tech ease of use and 3 times stronger than steel
- Spotter 220V - Adjustable pole for deep dents
- Long side-dent removal tool - Flexibility to repair full cab or bed scrapes or dents on trucks
- National Support - Localized training, expertise and support

Item	Article No.	Qty.
Aluminum Workstation	46539	1
Consisting of		
Mobile cart with shelving, tool board & work area		1
Aluminum spotter, 230V		1
Carbon Fiber Pull Bar, dent pulling system with 6 jaws.		
- 50 cm (20")		1
- 100 cm (41.5")		1
- 160 cm (67.5")		1
Fast Puller for Carbon Fiber Pull Bar		1
Hand Puller		1
Aluminum Hammers, professional grade		4
4 mm screws, M4x16mm AISi12 (Box 100)		3
4 mm screws, M4x16mm AlMg3 (100/Box)		3
Threaded pull washers (20/Box)		2
