Pulling accessories

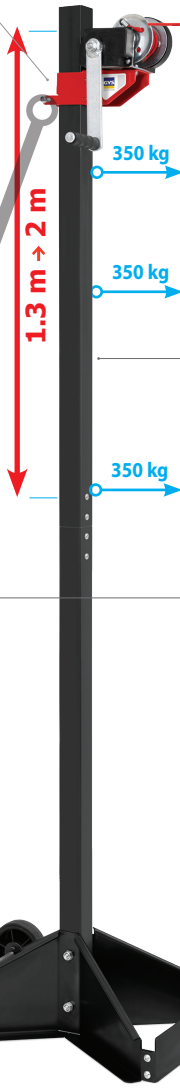

XL tower
for AIRFIX DRAW ALIGNER (077379)

Ref. 083714

When fastened to the AIRFIX DRAW ALIGNER, the XL tower generates a pulling force of 350 kg, making it easier to remove dents from the upper sections of commercial vehicles, 4x4s and SUVs up to 2 m high.

Simple and ergonomic winch height adjustment.

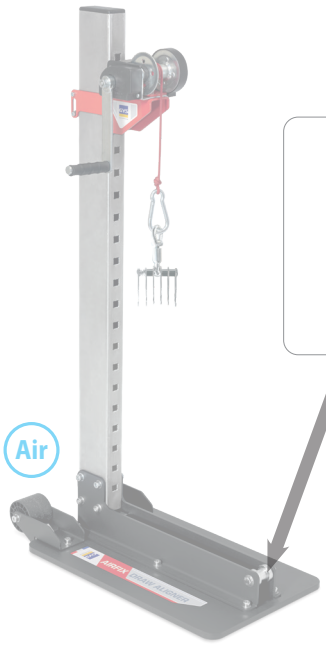

Pulling distance up to 2 m

Ultra-strong, lightweight rope with a maximum tensile strength of 1.5T.

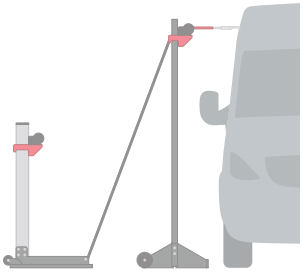

Pulling force **up to 350 kg** over the entire upper section of the mast, **from 1.30 m to 2 m.**

Very straightforward to use: fastened by a strap to the AIRFIX.

AIRFIX DRAW ALIGNER (077379)

No need for compressed air, anchoring to the ground is done by the AIRFIX.

Lightweight (21 kg) and **easy to move** around the workshop on 2 wheels.

Palletisable package
27 x 118 x 25 cm
21 kg
